

# FACULTY ASSEMBLY

## May 15, 2017

### 11:00am Library Auditorium

#### Agenda

- I. Call to Order 11:12
- II. Acceptance of April meeting minutes Chapin first and Rahimi and Second
- III. Update from the Office of the President Ms. Kimberly Dumpson
  - a. Thanks us for the hard work for each and every day
  - b. Coalition case- best option to resolve this matter, posted in April
  - c. voluminous documents- coalition filed consistent with everything
     before, unnecessary duplication, adding new programs, support for HBCU
  - Requests were large and substantive, to eradicate vestiges for segregation- highlighting niche program offering, will sustain over time, and have something distinctive.
  - e. State side- 50 million dollar total for remedy for 3 institution, want to exclude UMES, we have a significant percentage of white studentsunnecessary duplication – only 9% of programs duplicated- parties are at opposite ends of the spectrum. Plaintiff's remedies are too large- UMES had no input in documents- want to exclude one person from the testimony. No change in the fight. We still need support from UMES.

- f. Do we want to do the nuclear option? This issue is significant, and we have been dealing with this for 10 years. Hire an independent counsel, to see if we can intervene in case, and have our voice be heard. She will take that back to Dr. Bell. They are planning to draft a template to send correspondence to judge, etc. We should be party to the remedy.
- g. In the template, they will have the addresses.
- h. The court has not ruled on whether we are included in this lawsuit.
  - i. It might be helpful to get alumni involved- we have more than 14,000 alumni with contact information.
