# How to Log Into Respondus LockDown Browser

Respondus LockDown Browser (LDB) is a custom browser that locks down the testing environment within Blackboard. When students use LDB to take a Blackboard test, they are unable to print, copy, go to other websites, access other applications, or close a test until it is submitted for grading.

**Log into Respondus LockDown Browser through MYUMES Portal.**

Due to recent changes, to log into LDB to take an exam, you will need to follow these steps.

1. Double click on the Respondus LockDown Browser Icon. The Blackboard learn login screen will appear. If you receive a dialog box for Cookies, please select Agree & Continue.

2. Click on the drop-down menu next to "Sign in with third-party account".

3. Select "MYUMES Login Portal" from the drop-down menu. You should be taken to the MYUMES Portal.

4. Login to the portal then the LockDown Browser should launch.

**Warning**: Respondus LockDown Browser & Google Chrome were used to create these instructions. If you are using a different browser, the instructions may differ. Please do not use Internet Explorer for Blackboard.
