**SCHOOL of BUSINESS AND TECHNOLOGY**  
Department of Engineering and Aviation Sciences

**Memorandum**

**Date: January 21, 2020**

The Department offers a Bachelor's Degree program in General Engineering with Aerospace, Electrical, Computer, and Mechanical Specializations. The engineering program is accredited by the Engineering Accreditation Commission (EAC) of ABET under the General Criteria since 2011.

Although the program we offer is not a standalone mechanical engineering, computer engineering, aerospace engineering, or electrical engineering program, our graduates have secured successfully various engineers positions in industry or gone on to graduate (doctorate or mater's) programs in traditional engineering disciplines at top tier research universities.
