Samueli
School of Engineering

Summer Undergraduate Research Experience (SURE)

The Summer Undergraduate Research Experience (SURE) Program at the UCLA Samueli School of Engineering will launch in the summer of 2023 from Jun. 25 - Aug. 19. The purpose of the eight-week program, which is supported by Amazon, is to provide a cohort of 20 students who are typically underrepresented in engineering and computer science an opportunity to conduct innovative and cutting-edge research on the UCLA campus.

PROGRAM HIGHLIGHTS

- Eight weeks of undergraduate research
- On-campus housing, meals and access to UCLA recreation facilities
- \$5,350 stipend
- Weekly professional development and graduate school workshops
- Graduate and faculty mentoring
- End-of-program research poster presentation
- Evening and weekend social activities

ELIGIBILITY REQUIREMENTS

- Current sophomore or junior enrolled at a U.S.- based college or university
- Must be a U.S. citizen, permanent resident or DACA recipient
- GPA of 3.0 or higher
- Must be available to participate in research for 40 hrs/week for the duration of the program, professional development and graduate school workshops
- Interested in attending graduate school
