

Virginia Commercial Space Flight Authority 2022 Summer Internship Program

Virginia Commercial Space Flight Authority is excited to announce our 2022 Summer Internship Program, located on the Eastern Shore of Virginia. We are committed to promoting STEM education, as well as industrial and economic development, through the growth and promotion of the commercial space flight industry.

We are currently seeking qualified rising Seniors, and rising Juniors, enrolled in a four-year bachelor's degree program to participate in a 11-week summer internship, at the Mid-Atlantic Regional Spaceport in Wallops Island, Virginia. Those selected for the program will gain valuable exposure to the day-to-day operations of a launch pad. They will work with a highly experienced team, ranging from entry level engineers to thirty-year plus veterans of the Space Shuttle program. Interns are required to participate in a final capstone project of their choice and experience at the end of the program.

The internship program begins on Monday, May 31st until Thursday, August 11th. Resumes will be accepted until March 11th. Students wishing to apply may submit a resume and a one-page cover letter to human.resources@vaspace.org. Applicants must be U.S. Citizens.

Please include the following:

- Indicate your residency in either Virginia, Maryland, or Delaware
- Identify your degree program
- State how many years of college you will have completed as of May 2022
- Include in your resume your current GPA, relevant course work, and relevant experience
- Indicate if you currently possess a Federal Security Clearance – **Background checks will be verified**

Internship Position Overview

Students who are selected for the internship will be assigned duties that are applicable to their degree and career goals.
