

Celebration of Engineers' Week

About 50 students (grade 9 – 11) in the Next Generation Scholars Program from Wicomico High School visited the UMES's Engineering and Aviation Sciences Department to celebrate the National Engineers Week on February 19, 2020.

Engineering faculty and engineering students explained to Wi-Hi Next Gen Scholars how to use Computer Aided Design (CAD) software for engineering design in the CAD Lab.

Engineering staff demonstrated to Wi-Hi Next Gen Scholars how to test a micro-controller using Dragon12 Plus development board in the Embedded System Design Lab.

Wi-Hi Next Gen Scholars tested programming and operating of a Microbot Teachmover robotic arm in the Robotics Lab

Wi-Hi Next Gen Scholars gather in the Atrium of the Engineering and Aviation Science Complex.

About 50 Next Gen Scholars (9 – 11 grade) from Wicomico High gather in the Lecture Hall for the Engineers Week in the Engineering and Aviation Science Complex.
