

Apply for a Paid 2022 DOD HBCU/MI Summer Internship

Program Information

The DOD HBCU/MI Summer Research Program provides students with a unique developmental experience to broaden their perspective and provides them with practical advanced education related to their academic fields. Students are afforded the opportunity to work side by side, in-person, with Department of Defense scientists and engineers in state-of-the-art research facilities while observing and implementing concepts from their coursework to perform advanced research that contributes to the world around them.

Benefits:

- Get paid for a full-time (40 hours per week) internship
- Gain valuable work experience
- Explore your career path in a real-world setting
- Develop and refine your skills
- Network with professionals in your field
- Gain confidence in a work environment
