Empowering you for your first year of college success and beyond!

At Capital One, we recognize the importance of engaging and developing the community we serve.

Our **First-Gen Focus** program is designed to offer you, as a 1st year first-generation college student, the opportunity for professional and personal development within our 3 core program pillars: Financial Well-being, Personal Wellness, and Career Readiness & Persistence.

The annual program is also designed to help you begin to confidently navigate through your first year of college and to prepare you for life after graduation. *The program does not guarantee future employment at Capital One but should help prepare you for those opportunities.*
