

# PATHWAYS

Internship Employment Program (IEP) for current students

NASA Goddard Space Flight Center (GSFC) is embarking on new missions and seeking fresh ideas! Don't miss out on the opportunity to join the NASA team and develop cutting edge job skills in Science, Technology, Engineering, and Math (STEM), as well as Business fields. NASA is consistently recognized as one of the best places to work in the Federal government.

### Pathways Internship Employment Program (IEP)

opportunities are open to current undergraduate and graduate students. The IEP is a flexible cooperative education experience that allows students to work as federal employees while attending school. We offer full or part time work schedules for students attending school on at least a half time basis (*following your school's definition*).

GSFC will be accepting applications via USAJobs from **April 3, 2017 to April 10, 2017** for Pathways IEP opportunities for students who can begin working in late August 2017. Please note this is not a summer intern program.

*U.S. Citizenship is required. If you are not a U.S. Citizen, please visit:*

## One Stop Shopping Initiative

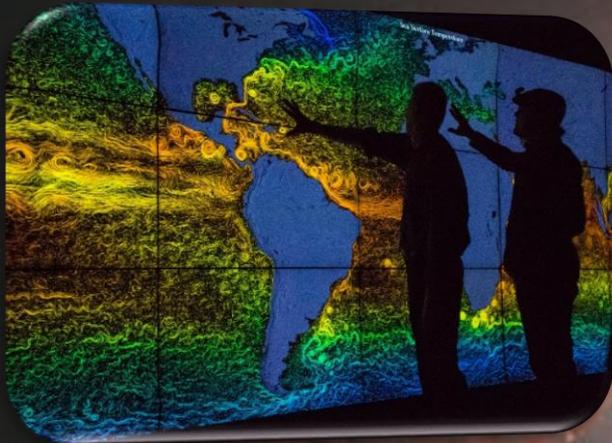

**One NASA System • One Submitted Application • One Amazing Opportunity**

OTHER OPPORTUNITIES: NASA's Office of Education sponsors seasonal opportunities including internships, fellowships and scholarships.

If you are interested in non-federal service student research-based science, technology, engineering and math (STEM) opportunities (e.g. 10-week summer assignments) sponsored by NASA's Office of Education, apply directly at: [intern.nasa.gov](http://intern.nasa.gov).

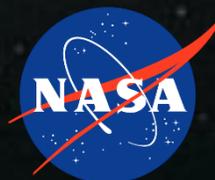

*U.S. Citizenship is required.* If you are not a U.S. Citizen, please visit <http://intern.nasa.gov/non-us-opportunities/index.html>.
