Dear Sir/Madam:

BSC Group, Inc. is one of the top 250 multidisciplinary consulting engineering firms in the nation with four offices in Massachusetts, and one in Connecticut. We are an established, progressive company providing civil/site engineering; surveying, mapping and GIS; environmental, permitting and ecological science; resiliency planning; transportation engineering; structural engineering; landscape architecture; and planning services to developers, corporations, municipalities, utilities and governmental agencies. In addition to staffing our technical positions, we also have Accounting, Marketing, Information Technology and Human Resources departments for which we sometimes have hiring needs. BSC Group is committed to recruiting qualified minority graduates across the United States.

Enclosed is the information outlining our company profile, services and available positions.

I would greatly appreciate it if you would place the enclosed information in your career placement office so that students who are interested in opportunities with BSC may contact us. Alternatively, they can search our website, www.bscgroup.com, for open positions.

If you have any questions, please call me at (617) 896-4300. Thank you.

Very truly yours,

BSC Group, Inc.

About BSC Group

BSC Group is a collaborative practice of planners, engineers, and scientists steering projects in transportation, energy, and land development. Founded in 1965, BSC offers integrated professional services to support public and private clients throughout New England.

BSC Group is an employee owned firm with broad based ownership throughout all disciplines and ranks. Our ownership diversity spans more than four decades of varying experience levels. We have 35% female ownership narrowing the gender gap in a traditionally imbalanced industry.

BSC's broad ownership base believes client success is our success, promoting an engaging and rewarding culture. Importantly, BSC Group professionals enjoy their work; they are participatory and productive, and trust that their personal stake and involvement builds strong, client-focused teams that deliver better and more creative outcomes for BSC clients. With a penchant for new technologies and industry innovations, BSC staff are driven to deliver best practices for sustainable results.

Client Base

BSC Group is proud to work with numerous state, regional, and local agencies and municipalities on a wide variety of projects, contributing to fundamental improvements in New England's infrastructure and quality of life. BSC is also pleased to collaborate with a client base that includes private sector organizations such as regional and national land development firms as well as energy providers implementing best practices in sustainable and reliable solutions. Our firm also supports private and public institutional growth, strengthening relationships with top-tiered educational clients that support our workforce. For all clients, BSC provides a broad range of services, from planning through design, permitting and construction administration services.
