Geosciences Bridge Program

The Geosciences Bridge Program is a collaborative summer program designed to recruit and train high school students, particularly from underrepresented groups, in various geoscience fields. **The collaboration is between the National Oceanic and Atmospheric Administration's (NOAA) Cooperative Science Centers (CSC).** The program offers a 6-week **paid internship (\$500/week stipend + housing + meals)** for students planning to pursue careers in a field of geoscience. The program includes lectures, field trips, hands-on activities, 1 course for college credit (math), bi-weekly seminars, housing, meals, travel to and from the University of Maryland Eastern Shore, and a stipend.

Who can apply

Graduating High School seniors who plan to pursue a bachelor's degree in a geoscience discipline; priority is given to students planning to attend a NOAA Cooperative Science Center academic partner.

When

The program will run from June 26th – August 4th, 2023.

Applications are available at:

**<https://www.wcp.umes.edu/geosciences>
Applications are due on April 21st, 2023!**

Where

The program will take place over 6 weeks at the University of Maryland Eastern Shore in Princess Anne, Maryland.

WHY SHOULD I JOIN THE GEOSCIENCES PROGRAM?

- *Gain hands-on experience in several areas of geoscience*
- *Prepare for transition into college life*
