

The University of Maryland Eastern Shore (UMES) is one of eleven institutions that form the University of Maryland System and it is approved by the State of Maryland and fully accredited by the Middle States Association of Colleges and Schools. There are over 3,000 students enrolled; 93% are undergraduates. UMES is located in the small town of Princess Anne on the Eastern Shore of Maryland. The quiet community is an excellent environment for learning, yet it is only 2-1/2 hours by car from Baltimore.

TECHNOLOGY EDUCATION

IN MARYLAND

TECHNOLOGY EDUCATION

A Unique Partnership Between Maryland's Public Schools and Higher Education

echnology education is a comprehensive, experience-based curriculum in Maryland's public schools in which students learn about technology — its evolution, systems, techniques, utilization, and social and cultural significance.

Through the establishment of high school graduation requirements in technology education, Maryland is committed to providing all students with opportunities to:

- 1. Develop technological literacy,
- 2. Gain the information needed to make sound decisions about further education and careers, and
- 3. Prepare for engineering-related careers.

Meeting the Educational Challenge of the 21st Century Through the Study of:

- Mechanical Technology
- Structural Technology
- Electrical Technology
- Electronics Technology
- Fluid Technology
- Thermal Technology
- Optical Technology
- Bio Technology
- Materials Technology
- Information Systems

he University of Maryland Eastern Shore (UMES) offers the only program of studies in the state of Maryland that prepares
Technology Education teachers. The Department of Technology at UMES provides:

- State-of-the-art facilities
- Excellent faculty
- Contemporary curriculum
- Emphasis on leadership skills required for successful teaching
- Course delivery to off-campus sites
- Continuing education for teachers in the field
