## The Robert Gray Class of 2004

By tradition, each Iota Lambda Sigma class of initiates is named to honor the work of an individual who has made extraordinary contributions to workforce development and career and technology education.

This year, we honor the work and contributions of Robert Gray. Bob has been a local, state and national leader in career and technology education for over 35 years. Bob is a model professional, and we are proud to recognize him as a person worthy of having a Nu Class named in his honor.
