Gerald F. Day Class of 2012

By tradition, each Iota Lambda Sigma class of initiates is named to honor the work of an individual who has made extraordinary contributions to workforce development and career and technology education.

This year, we honor the work and contributions of Gerald F. Day. Jerry had been a local, state and national leader in career and technology education for over 35 years. Jerry was a model professional, and we are proud to recognize him as a person worthy of having a Nu Class named in his honor.
